Preface to the special issue on 'Catalysis in neoteric solvents or alternative media'  
F. Lamaty and J. Dupont  

Organic reactions in water or biphasic aqueous systems under sonochemical conditions. A review on catalytic effects  
G. Cravotto, E. Borretto, M. Oliverio, A. Procopio and A. Penoni  

Easy entry to donor/acceptor butadiene dyes through a MW-assisted InCl₃-catalyzed coupling of propargylic alcohols with indan-1,3-dione in water  
J. Francos, J. Borge, J. Diez, S.E. García-Garrido and V. Cadierno  

Thiourea-catalyzed dearomatizing [4+2] cycloadditions of 3-nitroindole  
M. Andreini, M. De Paolis and I. Chataigner  

Nano-ruthenium particles supported on a core-shell shuttle: As an efficient lipophilic catalyst for the aerobic oxidation of biomass-derived 5-(Hydroxymethyl)furfural  
Y. Zhu, X. Liu, M. Shen, Y. Xia and M. Lu  

Tridentate ONS vs. ONO salicylideneamino(thio)phenolato [MoO₂L] complexes for catalytic solvent-free epoxidation with aqueous TBHP  
W. Wang, T. Vanderbeeken, D. Agustin and R. Poli  

Olefins metathesis transformations in thermomorphic multicomponent solvent systems  
S. Huang, H. Bilel, F. Zagrouba, N. Hamdi, C. Bruneau and C. Fischmeister  

Effects of Fe doping on oxygen vacancy formation and CO adsorption and oxidation at the ceria(111) surface  
X-S. Liu, X.-D. Wang, M. Yao, W. Cui and H. Yan  

Fe₃O₄/SiO₂/(CH₂)₃N⁺Me₃Br⁻ core–shell nanoparticles: A novel catalyst for the solvent-free synthesis of five- and six-membered heterocycles  
A. Farrokhii, K. Ghodrati and I. Yavari  

(Contents continued on inside back cover)
Catalysis Communications

An international journal dedicated to rapid publications in catalytic research

Editor-in-Chief
James G. Goodwin Jr.
Department of Chemical and Biomolecular Engineering
Clemson University, Clemson
SC 29634-0909, USA
Fax: +18646560784
E-mail: james.goodwin@clemson.edu

Editors
Angelika Brückner
Leibniz-Institut für Katalyse
D-24118 Rostock, Germany
Fax: +49 (0381) 873 4454
E-mail: angelika.bruackner@catalysis.de

Jean-François Carpentier
Université de Rennes 1
UMR6226-Catalyse et Organométalliques
BP 70C, Campus de Beaulieu,
35042 Rennes, France
E-mail: jean-francois.carpentier@univ-rennes1.fr

Editorial Board
A. Ademis
(University of New South Wales, Australia)
J. Berzahl
(Catalysis, Inorganic Chemistry, Université de Poitiers, France)
S.A. temple
(Department of Chemical Engineering, Norwegian University of Science & Technology (NTNU), Norway)
J. Cao
(Institut für Physikalische Chemie und Elektrochemie der Universität Hannover, Germany)
Y. Chen
(Department of Chemical Engineering, National Central University, Chung-Li, Taiwan)
V.K. Choudhary
(Chemical Engineering and Process Development Division, National Chemical Laboratory, Pune, India)
Steven S.C. Cheung
(University of Akron, Ohio, USA)
C. Chave
(Fac. de Quimica, Universidad Rovira Virgili, Tarragona, Spain)
J.C. de Vries
(DSM Research, The Netherlands)
R. Gomez
(Department of Chemistry, Univ. Autónoma Metropolitana, Iztapalapa, Mexico City, Mexico)
S.B. Hallgquist
(Catalysis Div. for Molecular Engineering, Korea Research Institute of Chemical Technology)
J.Z. Hao
(Center for Eco-Environmental Sciences, Chinese Academy of Sciences (CAS), Beijing, China)
J.S. Hargreaves
(Department of Chemistry, University of Glasgow, UK)
P. Jol
(Institut des Sciences Chimiques de Rennes, France)
A. Karp
(Department of Chemistry, University of Debrecen, Hungary)
A.F. Lee
(Catalysis Institute, Cardiff University, UK)
R. Luque
(Department of Química Orgánica, Universidad de Córdoba, Campus de Rabanales, Spain)
B. Lujza
(Leibniz-Institut für Katalyse, Richard-Wिलिबॉट-Stiftung 12, 12860 Berlin, Germany)
K. Maehara
(Department of Chemistry, Graduate School of Engineering Science, Osaka University, Japan)
J. Metzler
(SSM CNRS 811, Faculté des Sciences Jean Perrin, Université d’Artois, France)
A. Moruzzi
(Gruppo di Catalisi e Chimica del Sviluppo, ENEA National Superiore di Chimica, Italy)
J. Pérez-Ramírez
(General, Institute of Chemical Research of Catalonia (ICIQ), Tarragona, Spain)
F. Piraux
(Center of Excellence in Catalysis and Catalytic Reaction Engineering, Department of Chemical Engineering, Chulalongkorn University, Bangkok, Thailand)
A. Saper
(Department of Chemistry, University of Otago, New Zealand)
J. Schwank
(Department of Chemical Engineering, University of Michigan, USA)
M.S. Sculatti
(University of Technology, University of the Witwatersrand, Johannesburg, South Africa)
B.H. Shen
(Department of Chemical and Biological Engineering, Iowa State University, USA)
G.S. Shukla
(Institute of Chemical Physics, Russian Academy of Sciences, Moscow, Russian Federation)
J.K. Song
(Chemical Physics, Osaka University, Japan)
D. Uner
(BP America, Inc., Naperville, USA)
J. Schwank
(Chemical Physics, Osaka University, Japan)
A. Praserthdam
(Chemical Engineering and Catalytic Reaction Engineering, Department of Chemical Engineering, Chulalongkorn University, Bangkok, Thailand)
E. Martin
(Chemical Physics, Osaka University, Japan)

Scope
Catalysis Communications aims to provide rapid publication of significant, novel, and timely research results homogeneous, heterogeneous, and enzymatic catalysis.

Audience
Chemical Engineers, Physical Chemists, universities, government and research institutes, industry.

Author enquiries
You can track your submitted article at http://help.elsevier.com/app/answers/detail/a_id/1091/~/how-to-track-your-submission.
You can track your accepted article at http://www.elsevier.com/horizon/author.
You are also welcome to contact Customer Support via http://support.elsevier.com.

Language (usage and editing services)
Please write your text in good English (American or British usage is accepted, but not a mixture of these). Authors who feel their English language manuscript may require editing to eliminate possible grammatical or spelling errors and to conform to correct scientific English may wish to use the English Language Editing service available from Elsevier’s WebShop http://webshop.elsevier.com/languageediting/ or visit our customer support site http://support.elsevier.com for more information.

Illustration services
Elsevier’s WebShop (http://www.elsevier.com/illustrationservices) offers Illustration Services to authors preparing to submit a manuscript but concerned about the quality of the images accompanying their article. Elsevier’s expert illustrators can produce scientific, technical and medical-style images, as well as a full range of charts, tables and graphs. Image polishing is also available, where our illustrators take your images(s) and improve them to a professional standard. Please visit the website to find out more.
